

DEBBIE LORD

ABOUT ME

I was born in lovely Littleborough in 1973. I currently live in Minrow with my family.

My interest in art started at Smithy bridge Primary school. I knew I wanted to be an Artist of some sort by the time I went up to Wardle High school.

But my journey really began at Stockport College where I discovered my love for pattern, Texture and colour.

I then went on to Cleveland college of art & design and completed a Hnd in Textiles and surface print design.

I have been very lucky to have had a successful career to date, working for various Textile Studios, designing prints for bedding, fabrics or any product with a pattern. They have then been sold in the uk and around the world to textile manufacturers and home stores.

Fun Fact :- I once sold a collection of christmas prints to Tommy Hilfiger at a show in Newyork.

After being made redundant in 2021 I had an urge to explore new ways of unleashing my creativity.

I joined the uks no 1 slip & paint company "pop up painting" as a part time Artist. This re-ignited my passion to paint.

I felt so liberated when I painted, after years of designing on the computer.

I enthusiastically joined an art group in mossley who met on a Thursday morning ran by another Littleborough Artist Susan Aggarwal.

Here I started to explore and develop my own painting style. Freedom to paint!

My Art work is about my love for nature. Spending time in nature is a gift to enjoy, getting outside is good for the soul.

This is celebrated in my paintings. I like to capture beauty and freedom. I want my artwork to bring the outside in, so you can always be reminded to take 5 and connect with nature.

My Art doesnt portray an accurate flower or perfect waves on the sea. Instead its about making marks dance on the canvas and the spontaneity of the movement. I want people to feel the joy.

Thankyou for stopping by and taking the time to visit my exhibition.

Love
Debbie
